What are your legal obligations to me when providing recommendations?

When we provide you with a recommendation, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interest. You should understand and ask us about these conflicts because they can affect the recommendations and investment advice we provide you.

You may find information at: <https://tandemsecurities.net/> and click on the links to the different Mutual Fund Companies to view their fund Prospectus and see what, is any, their maximum sales charges and sales charge discounts they may have. You can also visit the Mutual Fund site directly by typing in the Mutual Fund Company name in your internet browser to view their literature and forms for all funds they offer.

How else does your firm make money and what conflicts of interest do you have?

These conflicts may arise when,

- Providing advice on rollovers or transfers, withdrawals, and investment types, and other services.
- Helping you choose one product over another- a registered rep may earn more commissions from one company's product than from another.

While such conflicts exist, we review all transactions to help mitigate these conflicts.
